INTERVIEW SUMMARY

A telephone interview was held on April 19, 2005 between Examiner Robert Rose, Mr. David Osborne, and Mr. Erik Ericksen. The cited references were discussed. The previously added functional limitation regarding the size of the small projections was also discussed. Although the Applicant believes that such a limitation is sufficient to structurally distinguish the claimed dressing tool, Applicant suggested a specific height limitation in order to even further distinguish over the asserted prior art references. The Examiner agreed that such a limitation may help to resolve his concerns. Applicant stated that an RCE would be filed along with an amendment for further consideration.
